**TWERGO**  
The Ultimate Ergo Wheel

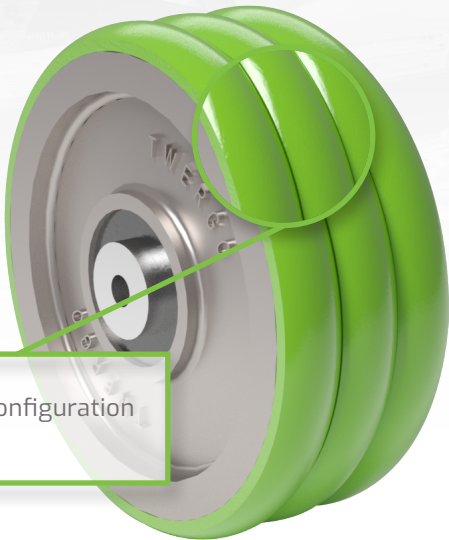

# CASTER CONCEPTS

Beyond Standard.

Patented force reducing, productivity increasing wheels.

3-wheel configuration available.

## DO MORE WITH LESS

- 25% average reduction in push force means more people can safely push a cart
- Increase a cart's load without increasing the push force

## GREAT FOR AGV'S AND TUGGERS

- Extended battery life
- Wheels rotate independently, offering better rollability and less scrubbing when turning

## PRODUCTIVITY GAINS

- Reduces the force exerted to start and turn
- Moves more weight without compromising safety
- The solution for increased production levels
- Eliminates labor maintenance with precision-sealed ball bearings

## MORE ROOM TO MANEUVER

- In tight or narrow spaces, the tapered tread design provides a tight turning radius for better maneuverability

## THERE'S A TWERGO WHEEL FOR YOU

- Twergo ergonomic wheels also available in Twergo Lite (single wheel) and Twergo Xtreme (dual wheel barbell configuration)

## PRODUCT SPECIFICATIONS

Capacity	Maximum 4,200 lbs. per caster
Wheel Size	4x2 5x2 6x2 10x2 6x3 8x3 10x3 12x3
Wheel Core	Aluminum
Durometer	70A 85A 95A 70D Custom Polyurethane available
Bearing Type	Maintenance free Precision sealed ball bearing
