

**CASTER CONCEPTS**

Beyond Standard.

Do You Need To Safely Move Two Tons?

**CONSIDER IT DONE**

Introducing

**TWERGO XTREME**

Maneuver Heavy Loads With Ease

# CASTER CONCEPTS

Beyond Standard.

## PARABOLIC WHEEL FACE

- Achieves 25% average reduction in initial push force to start rolling
- Minimizes wear and risk of damage to tread

## PRECISION SEALED BALL BEARING

- Maintenance-free, eliminates costs and issues
- Extends use life
- Ensures consistent performance

## INCREASED PRODUCTIVITY

- 25% reduction in force exerted to start and turn
- Moves more weight without compromising safety
- The solution for increased production levels

## INDEPENDENTLY ROTATING WHEELS

- Reduces friction and force exerted
- Minimizes scrubbing and damage to flooring

## THICK TAPERED TREAD

- Dispels debris
- Reduces friction
- Achieves consistent wear, resulting in longer use

## GREAT FOR AGV'S & TUGGERS

- High weight capacities
- Reliable at higher speeds
- Extends battery life (less power exerted)

## PRODUCT SPECIFICATIONS

Capacity	Maximum 3,500 lbs. per caster
Wheel Size	4x2 5x2 6x2 10x2 6x3 8x3 10x3 12x3
Wheel Core	Aluminum
Durometer	70A 85A 95A 70D Custom Polyurethane available
Bearing Type	Maintenance free Precision sealed ball bearing
